

SDI Review Form 1.6

Journal Name:	International Research Journal of Oncology
Manuscript Number:	Ms_IRJO_50018
Title of the Manuscript:	Solitary Osteochondroma of the Second Metacarpal Bone
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sd-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>There is no info on the follow-up. It is essential when removing any tumor to have a comprehensive follow-up to detect recurrences and confirm good healing (one year is mandatory). I suggest adding infos on this and providing an new X-Ray with the healed lesion.</p> <p>The discussion is a bit too short and should be more detailed on the other potential localisations, to demonstrate the originality of this case.</p> <p>I understand the rarity of the case so be more clear to demonstrate this singularity!</p>	
Minor REVISION comments	It would be helpful to add the histological picture to confirm the diagnosis	
Optional/General comments	Interesting case report, not the first. Need revision before approval	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
