PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - Differentiate the introduction and significance for the study. - write some latest references which little more significance in your study. - write sub titles in objectives and hypothesis , so that make it easy for the viewers _ If Mixed method research design has used , write what methods of analysis has been used in separately? (Its so clumsy) - Reference to be superscript and it's to be based on novelty. <p>Are there ethical issues in this manuscript? No, but if possible kindly verify the authorization letter from the local government and other administrative areas . Need to be , we are in safer side and increase the novelty of the journal.</p>	
Minor REVISION comments	<ul style="list-style-type: none"> - Can modify and use the reliable words? (If stigma is eradicate, PLWH would disclose their sero-positive 257 status and also feel free to patronise Drugs Centers closer to their place of residence.) - Include the significance of your findings in conclusion part ? 	
Optional/General comments	Revise the full article and write still more clear in all areas.
