SDI Review Form 1.6

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>(1). Please make revision, correct and complete punctuations.</p> <p>(2). Move the ethical approval from UDUTH, to the end of the text, below the conclusion and above references.</p> <p>(3). Kindly number the sections of the article sequentially. Do not use chapters as you did in section 5, Discussion. Please note that "The text, excluding the abstract, if required, can be divided into numbered sections with brief headings. Starting from introduction with section 1. subsections should be numbered (for example 2.1 (then 2.1.1, 2.1.2, 2.2, etc.), up to three levels".</p> <p>(4). In the text, indicate your citations with reference numbers appearing in normal numerals, preferably enclosed in a bracket [ ], and not names of authors and year of publications. The references should be numbered serially, according to the sequence of the citations. See the authors' guidelines for an "Eg of a reference to a journal, for published paper: 1. Hilly M, Adams ML, Nelson SC. A study of digit fusion in the mouse embryo. Clin Exp Allergy. 2002;32(4):489-98". Please refer to the paper template or authors guidelines at <a href="http://www.sciencedomain.org/journal/23/authors-instruction">www.sciencedomain.org/journal/23/authors-instruction</a>, for further clarifications.</p>	
<p><b>Optional/General</b> comments</p> <p>See manuscript</p> <p><b>Red</b> highlights signifies: delete / make corrections</p> <p><b>Green</b> highlights signifies: add / guide to correction</p>	<p>Nice scholarly article. Well written and well presented in good and simple English. Abstract, introduction, material and methods, as well as discussions, were properly articulated and well written.</p> <p>The results were well presented, and reflected the true explanations of the tables and figures.</p> <p>Tables and figures were also self explanatory.</p>	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
