

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_43434
Title of the Manuscript:	Live mulch conservation effects on crop yields: A study of sweet potato in Southwest Nigeria
Type of the Article	Original research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good and excellent research work on the effect of live mulch conservation practices on the biomass and yield of sweet potatoes in Southwest Nigeria. The study revealed that adequate conservation practices on degraded soils can increase crop productivity, ensure food security as well as increase farmers income.	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Some few corrections have been indicated in the manuscript using the comment icons 2. Author(s) should effect all the corrections as identified 3. Author(s) should adopt the journal style and format in completing the references in this manuscript 4. All journals cited in this manuscript must be written in full and not abbreviated to help cross referencing and citation counts 	
Optional/General comments	Good research work.	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
