PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This title leads the reader to think that the study is to evaluate different doses of fertilizers stipulated by the authors. But it is not. Therefore, the title should be appropriate because it does not match the content of the search.</p> <p>From what is in the text, the objective of the study is to evaluate the forms of fertilization used for the plum cultivation and if it is suitable with the low impact fertilization. But that is not the purpose that can be understood through the title of the research.</p> <p>The article gives much emphasis to meteorological data, which is neither in the purpose or title of the survey.</p>	
Minor REVISION comments		
Optional/General comments
