SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>On introduction epigraph, authors have to describe something about Remote Sensing (SR) techniques that they used on this paper, at least their names as a introduction.</p> <p>What reference is Anjos (2018)? It is not on references epigraph. Could be this one: http://docplayer.com.br/116911605-Universidade-federal-de-campina-grande-centro-de-saude-e-tecnologia-rural-programa-de-pos-graduacao-em-ciencias-florestais-campus-de-patos-pb.html? Take care with this kind of things on JCR journals</p> <p>Resolution of Fig. 2, 3, and 4 have to be improved. Some caption are not readable.</p> <p>On the text, Fig.4 is mentioned before Fig. 3.</p> <p>Table 2 is not cited on the text</p> <p>Fig 8 is mentioned but it is not on the text!</p>	
Minor REVISION comments	<p>I suggest changing key words; they are not suitable or not specific at all (ex. geotechnology).</p> <p>In my opinion, when the authors want to cite one work of others, I would start: "For the Ministry of the Environment...". And I would put the reference number on the end of the sentence. This is mandatory on 3^{ed} paragraph of page 2.</p> <p>Athos shall standardize the references [x] not [x]</p> <p>Translate the projection and source of fig.1</p>	
Optional/General comments	<p>Authors summarized another bigger paper, however there are some mistakes that have to be resolved.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
