

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Experimental Agriculture International</a>
Manuscript Number:	Ms_JEAI_50035
Title of the Manuscript:	Development of a Method to produce Granulated Sugar from the Inflorescences Sap of Coconut (Cocos Nucifera L.) in Ivory Coast: Case of Hybrid PB113+
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>General:</b> The manuscript entitled, "Development of a Method to produce Granulated Sugar from the Inflorescences Sap of Coconut ( <i>Cocos Nucifera L.</i> ) in Ivory Coast: Case of Hybrid PB113+." is an important piece of work describing the a method to produce Granulated Sugar from the Inflorescences Sap of Coconut. Importantly the authors have done excellent efforts. The literature review is thorough. Tables were presented properly. I approve of it for publication after following minor revision in the manuscript as below.	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Separate Results and Discussion</li> <li>2. See minor correction in the attached file.</li> </ol>	
<b>Optional/General</b> comments	<b>General:</b> The manuscript entitled, "Development of a Method to produce Granulated Sugar from the Inflorescences Sap of Coconut ( <i>Cocos Nucifera L.</i> ) in Ivory Coast: Case of Hybrid PB113+." is an important piece of work describing the a method to produce Granulated Sugar from the Inflorescences Sap of Coconut. Importantly the authors have done excellent efforts. The literature review is thorough. Tables were presented properly. I approve of it for publication after following minor revision in the manuscript.
