PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a very good and detail paper. However, there are some amendments need to be done. 1) references – most of your references are too old. If you are refereeing to a model or concept, it is ok. Please update your references (less than 5 years if possible) 2) Table 2- I disagree on your presentation of your demographic data (poverty status, education level, gender, television, radio, place of residence and locality). You cannot use mean and SD to present such data. Please reanalyse on this part. Just use frequency and percentage
