**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The Abstract needs to be re-written to reflect the Methodology, Results and Conclusion instead of splitting it. The equations were not numbered. The use of future tenses should be corrected. The research work had been carried out and should be reported in past tense. The particle sizes were not specified and this is very important in the analysis The paper needs to be properly overhaul to minimize some of the grammatical errors. Reference number should not preceding a sentence e.g line 10 of section 3.1 and many others. On page 3, 4 <sup>th</sup> line "temperature" should be changed to rainfall The methodology was not quite adequate and needs to be improved upon, especially the production of briquette is not new. The results were well discussed and the comparism was well established.	
<b>Minor</b> REVISION comments	Major revision required	
<b>Optional/General</b> comments
