PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The authors might want to rewrite the abstract which ideally only contains the results of the research. As it is now, it reads as an introduction</p> <p>The English is very good, but anyway it is probably good to go through the text again; there are always tiny things to improve (like 'communication' is not capitalized on line 31, and 'digitalization' instead of 'digitisation' on line 109)</p>	
Optional/General comments	The authors give a general overview of technology in learning and I see no reason why it should not be published	

PART 2:
