

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_47802
Title of the Manuscript:	MAGNETIC SUSCEPTIBILITY MAPPING OF ROCKS AND DEPTH ESTIMATION OF ANOMALIES: A CASE STUDY OF IGARRA AND ITS ENVIRONS.
Type of Article:	

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors made the corrections in some figures and in the tables, but some previous comments were not modified:</p> <ol style="list-style-type: none"> 1. I have information in Figure 6 is a repetition of the information of Figures 5 and 4, I suggest removing figure 4 because in terms of the message it becomes repetitive. 2. It would be good in the methodology to insert an illustrative figure showing the main differences between the three methods used to obtain the depths of the sources, since not all the readers know them.
