

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_47785
Title of the Manuscript:	Antibacterial Effects of Hydro-alcoholic Extract of Pennyroyal, Cinnamon and Rhubarb on Klebsiella Pneumoniae and Staphylococcus Aureus: an In-vitro Study
Type of Article:	

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Due to the relevance of the work in the area of biotechnology for bioprospecting of new medications from plant extracts already known with antibacterial activity, reinforcement is an excellent work in terms of methodology and importance in the scientific field. However, even though it was a work with a very relevant theme, there was a lack of detail in the statistical analysis of the data, and this study was further enriched.
