Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>To authors, I have some advice.</p> <ol style="list-style-type: none"> 1. Abstract: You state the same things in both Result and Conclusion. Make it short. 2. Abstract: You did not study "how to deal with the situation" and thus you should refrain from stating "what to do" in Conclusion. State things solely based on the study. In my opinion, Conclusion last can have this meaning but abstract not. 3. Methods: Please write if you had obtained IRB approval and IC from participants also within the manuscript itself. 4 References: Many articles have "single page". If these are papers of single page, then write in "44-44" like manner. 	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
