

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_50145
Title of the Manuscript:	Calculation of Relative Uncertainty when Measuring Physical Constants: CODATA Technique vs Information Method
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None	
Minor REVISION comments	None	
Optional/General comments	<p>This makes an interesting read.</p> <p>What bothers my mind however, is that the future of physical science constants is somewhat complex as more revelations emerge as we delve further into the science of the virtual world.</p> <p>The science of the virtual world is the 22nd Century science. The key here however, is that the paper smartly provides an insight into this dilemma and thus does a wonderful job at it. However, can the author attempt to streamline these concerns mathematically within the ambits of the paper?</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
