

Editor's Comment:

Reviewers of your choice for this article is not suitable...subject is not their working area..sent to appropriate reviewers..works on field plants.. one of reviewer works on " Meteorology-climatology, climate change, air-pollution, applied climatology (from Romania) , other works on "Soil fertility, nutrition of plants, organic fertilizer, mineral fertilizer, forest species (from Brasil) . ???
Please send this article to correct reviewers works on field crops...so millet, rice... after that, evaluation can be made.
