

Editor's Comment:

Dear editor, I have checked the files. First of all authors should point at the important places in photographs by adding arrows thus readers who does not know how to evaluate the graphs and photos may understand where are the regions or problems e.t.c. in the graph or picture. After this we can accept the manuscript for publication.

Editor's Details:

Dr. Nurhan Cucer

Professor, Department of Medical Biology, Faculty of Medicine, Erciyes University, Turkey
