

Editor's Comment:

1. All the In-text References and the Reference list are not presented in line with the style of the journal. CONFORM TO THE JOURNAL'S STYLE.
2. Mono-cropping/ mono cropping / monocropping?? SHOW CONSISTENCY!!
3. SECTION 2.3 - Each treatment was replicated 4 times (4 plots), how then did you select 4 randomly plots from each treatment for sampling? REWRITE TO CLARIFY YOUR STATEMENT.
4. CHECK THIS STATEMENT IN SECTION 3.1.1 – '*SOC and TN under the soil depth were statistically significant*' – This is not so in Table 2!! Why?
5. The conclusion needs revision.
6. REFER TO THE TRACKED MANUSCRIPT FOR FURTHER CORRECTIONS.
