

Editor's Comment:

The study titled '**Ultrasound Measurement Of The Abdominal Aortic Diameter In A Normotensive And Hypertensive Adult Nigerian Population In Enugu**' is an original and important study when the current information is scanned.

-The language used in the study is simple and understandable.

-The method used is explained in detail in the material method section.

-In addition, the article has been revised in accordance with the comments of the reviewers.

Therefore, it can be accepted for publication.
