

**Editor's Comment:**

The authors should write the references in the the list of references as they first appear in the text and not in alphabetical order according to the Journal template .

I did this arrangement myself hoping I could do this well

there is one reference in the text not mentioned in the list of references

Attached the manuscript after my corrections

After doing these corrections the article can be published

**Editor's Details:**

Dr. Abdel Razik Ahmed Zidan

Professor, Hydraulics and Water Resources, Mansoura University, Egypt
