

Editor's Comment:

My decision for manuscript number 2019/JEAI/50142. My decision is: Reject, however, I leave the final decision to the Editor-in-chief

Decision for manuscript number 2019 JEAI 50142 entitled 'Ecological survey of pests and natural enemies in the sour passion fruit progenies' written by Luciana Domiciano Silva Rosado, Claudio Horst Bruckner, Diarly Sebastião dos Reis, Natalia Silva Assunção, Ézio Marques da Silva, and Carlos Eduardo Magalhães dos Santos

Following evaluation of all documents related to the manuscript I can state that the manuscript is corrected in accordance with Reviewers' suggestions and requirements. Only COMPETING INTERESTS and AUTHORS' CONTRIBUTIONS should be also added. However, I have serious objection regarding literature cited in the manuscript. Almost half of references (precisely 12 per 26) is written in Portuguese. In my opinion it is not acceptable, because if the manuscript is submitted to international, English-language journal, it cannot contain references written in other than English. All Portuguese-language references cited in this manuscript are not acceptable because all of them are not available to assessing by editors, reviewers or readers who do not know Portuguese. Under such circumstances my decision is: Reject, however, I leave the final decision to the Editor-in-chief.
