

**Editor's Comment:**

The final decision and the comments are attached.

The manuscript entitled "In vitro contribution of herbal products on the activity of antifungal drugs against clinical Candida isolates" is within the scope of the journal. The theme is relevant, unpublished and dissemination of the results of this study will certainly contribute to the scientific community. The presentation of the results, as well as the discussion and conclusions are adequate and consistent. Thus, the recommendation is to accept the manuscript. However, few corrections should be conducted to further improve the quality of the paper presented.

Please check grammatically the manuscript. Some suggestions are highlighted.
