

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_45793
Title of the Manuscript:	Investigation of the association of <i>FOLH1</i> rs61886494 and <i>DISC1</i> rs12133766 loci with schizophrenic in Iran
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The sections in red have to be rewritten in understandable English or else are factually incorrect</p> <p>The sections in bold need to be substituted for what it in the paper. Where is the STATS analysis?</p> <p>There is, at this time, no clinical use for the findings – that has to made clear.</p>	<p>See attached</p> <p>Recruitment – how were patients recruited? We did not have direct contact with patients in this project, and samples were collected by expert physicians.</p> <p>Sample size calculation – how was sample size determined? Because this is in the form of a student thesis and I have to complete the specified period. So, in this period, this sample was collected.</p> <p>We did not perform specific statistical analysis on the samples, and only the frequency of specimens was determined.</p> <p>For patients, counseling is provided by a specialist physician about marriage as well as about giving birth to a child.</p> <p>Clinical use was not defined in our project, and we only performed laboratory tests on patient samples.</p>
