PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>It would be very useful to add in the "Introduction" section the purpose, objectives and hypothesis of the research.</p> <p>The equations should be written using the equation software.</p> <p>The authors must provide the software they have processed and the database they have accessed.</p> <p>I recommend the authors to present the novelty of this research compared to previous research.</p> <p>The authors must develop the conclusions.</p> <p>Authors should cite papers published in journals indexed in Web of Science.</p>	<p>The hypotheses have been added at the end of the introductory section. The purpose and objective were previously stated towards the end of the introductory section.</p> <p>The equations have been rewritten with an equation tool.</p> <p>The software used for the analysis is E-views econometric software 10.</p> <p>The novelty in this research work as compared to previous research was in terms of the unique variable that was employed. The author used unemployment rate as one of the macroeconomic factors that affects deposit mobilization of the Nigerian banking sector considering the high level of unemployment rate that is facing Nigerian economy. This has not been employed in previous studies. This was previously stated at the concluding part of the introduction and as the gap in literature at the end of the empirical review.</p> <p>The conclusion has been developed.</p> <p>Author has cited journals indexed in Web of Science. They were also added to the empirical review.</p> <p>Thank you for making a thorough review of my work and I hope that my paper will be accepted in your high impact factor journal.</p>
Minor REVISION comments		
Optional/General comments
