PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Although this is an interesting and important subject and, as an essay, it is well-enough written, this paper unfortunately does not contain sufficient analysis for the author to be able to claim that it has made a contribution to academic knowledge. The author is advised to think again about what kind of analytical framework can be brought to bear upon this subject, whether it is an empirical method or an examination in the light of a particular ideology and then revise the paper accordingly before resubmitting it.</p>	<p>The paper was written primarily as a policy review paper. For due reason, there is no framework or analysis on this paper. The theme of the paper is basically confined to a theoretical evaluation on the demonetization initiative taken by the Indian government in 2016. The information on this paper were collected from the published sources from 2016 to 2019 on the same topic. Therefore, as authors, we think that the paper is fit as a policy paper, not as an empirical paper or literature review.</p>
