PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author(s) provided interesting results of " Platelet Alteration in Plasmodium vivax Malaria Patients in Thailand ". I'm impressed by the writing style and good use of English language. The manuscript is well written according to the standard format. Tables 1 and 2 should be reviewed to conform with the standard style of presentation of tables in manuscript.	Thank you very much for your kind suggestion. We do agree with reviewer's comment for re-formatting the Table 1 and Table 2 to the standard style of presentation of the AJMAH journal.
Minor REVISION comments		Not Applicable
Optional/General comments	A comprehensive study of the subject matter.	Thank you very much for this valuable comment. We are going to design a haematological study in all laboratory parameters and cover in all human malaria species. We are wishing that our manuscript in this matter will be interested by editorial editors of AJMAH journal. Thank you once again for your suggestion, we will submit our manuscript as soon as possible.

PART 2:
