SDI Review Form 1.6

Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The title of the manuscript contradicts the outcome of the experiment. The result shows no hemolytic property rather it indicates enhanced hemopoesis in the animal.** **The result section of the abstract should be re- written.** **The author informed that samples were prepared for biochemical analysis but results were not presented.** **Discussion is too elaborate. Author should make write a concise discussion.**	Thank you for this observation, it has been effected.
Minor REVISION comments	Indicate animal treated with normal saline as control animal in the write-up.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*	**None**
