

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. This revised paper need to correct them,</p> <p>for example : (i) page 4, "$j = 1, \dots, n$ items," instead of "$j = 1 \dots n$ items,";</p> <p>(ii) page 4, "$\omega = (\chi_1, \dots, \chi_n) \in \Omega$" instead of "$\omega = (\chi_1, \dots, \chi_n) \in \Omega$";</p> <p>(iii) page 4, "the set $\{1, 2, \dots, n\}$ randomly" instead of "the set $\{1, 2, \dots, n\}$randomly";</p> <p>(iv) page 6, "O_i is the cell frequencies actually observed in category i" instead of "O_i is the cell frequencies actually observed in a category";</p> <p>(v) page 6, "E_i is the cell frequencies that would be expected in category i ..." instead of "E_i is the cell frequencies that would be expected in a category ...";</p> <p>(vi) page 6, "A small p-value (≤ 0.05) indicates strong evidence against the null hypothesis, so you reject the null hypothesis if the significance level $\alpha (= 0.05)$." instead of "A small p-value (typically ≤ 0.05) indicates strong evidence against the null hypothesis, so you reject the null hypothesis.";</p> <p>(vii) page 6, "A large p-value (> 0.05) indicates weak evidence against the null hypothesis, so you fail to reject the null hypothesis if the significance level $\alpha (= 0.05)$." instead of "A large p-value (> 0.05) indicates weak evidence against the null hypothesis, so you fail to reject the null hypothesis.";</p> <p>(viii) page 9, "The p-value is 0.000878." instead of "The p-value is .000878."; page 9, "The p-value is 0.000134." instead of "The p-value is .000134." , etc..</p> <p>2. The contents of the references are incomplete, for example: page 10, reference [18]:</p> <p>3. "Elhedhli S, Exact solution of a class of nonlinear knapsack problems. Operations Research Letters. 2005; 33(6): 615-624. " instead of "Elhedhli S, Exact solution of a class of nonlinear knapsack problems. 2005. "; page 10, reference [19]:</p> <p>4. "Devyaterikova MV, Kolokolov AA, Kolosov AP, L-class enumeration algorithms for a discrete production planning problem with interval resource quantities. Computers & Operations Research. 2009; 36(2):316-324." instead of "Devyaterikova MV, Kolokolov AA, Kolosov AP, L-class enumeration algorithms for a discrete production planning problem with interval resource quantities. 2009." , etc..</p>	<p>These statements have all been corrected</p> <p>The references have also been updated</p>
