**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Manuscript is quite interesting and has some sense of novelty. The authors should react to the following comments and suggestions:</p> <ol style="list-style-type: none"> <li>1. Check for typographical and grammatical errors in the abstract and the body of the work.</li> <li>2. Key words not properly written. Use key words and not statements/Highlights.</li> <li>3. Abstract should conform to the standard format (Introduction, Body and Conclusion/Recommendation).</li> <li>4. Table 1 should come within the work but not in the intro. Section.</li> <li>5. Citations/References should be written following Journal's guidelines.</li> <li>6. Avoid unnecessary capitalizations and unnecessary statements should be expunged from the work.</li> <li>7. Immunological techniques should come first before Nucleic acid-based test.</li> <li>8. Introduce all abbreviations in your work before using the acronyms.</li> <li>9. State future prospects of the study and limitations of the tests.</li> <li>10. Please strictly adhere to the Journal style for presenting Review papers.</li> <li>11. References should be arranged based on Journal guidelines.</li> </ol>	<ol style="list-style-type: none"> <li>1. Checked and corrected.</li> <li>2. Corrected and highlighted in yellow (line 24-25).</li> <li>3. Noted and followed accordingly (line 20-250), highlighted in yellow.</li> <li>4. The table was used to orderly list the members of <i>Mycobacterium tuberculosis</i> and <i>M. avium complex</i> to avoid ponderosity. Introducing this organism and mentioning it family members is the core part of the introduction, thus may not make more sense else way.</li> <li>5. Author's guidelines strictly followed.</li> <li>6. Noted and corrected.</li> <li>7. Noted and corrected (line 98-200).</li> <li>8. All abbreviations are introduced before used.</li> <li>9. The future prospectus of the study is stated in line 23-25. The limitations of the different techniques are shown in table 2.</li> <li>10. Yes</li> <li>11. Noted and corrected accordingly.</li> </ol>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**
