PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The paper represents the study of effects of <i>M. koenigii</i> (curry) leaf extracts on learning and memory in mice. This paper is carefully executed and clearly presented but I have few criticisms for this work:</p> <p>1) I would recommend to change the citation list to be more coherent. You should unify the style of references (reference on line 243 is unacceptable, etc).</p> <p>2) Authors should not write details of the 'Materials and Method' section in the Abstract such as 'body weight' and etc.</p> <p>3) I would recommend to unify the style of charts and figures. The text for some figures is bold and some is not.</p>	<p>This has been corrected</p> <p>This has been done</p> <p>This is correction has been effected</p>
Minor REVISION comments	none	
Optional/General comments	none	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
