<b>EDITORIAL COMMENT'S on revised paper (if any)</b>	<b>Authors' response to editor's comments</b>
<p>I have the following comments:</p> <ul style="list-style-type: none"><li>*Manuscript needs language &amp; grammatical editing</li><li>*Sampling method is vague. What is the total number of the target population? How was the sample selected? what is the response rate?</li><li>*Add a paragraph on data analysis in the methods section</li><li>*Add study limitations</li><li>*Many outdated references</li></ul> <p>1. Decision: Major revision</p>	<ul style="list-style-type: none"><li>*Language and grammatical editing has been carried out on manuscript.</li><li>*Details on the population, and sampling is effected</li><li>*Paragraph on data analysis is included</li><li>*Limitations of the study is included</li><li>* More resent references added</li></ul>
