**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>This manuscript addresses a very interesting subject of great relevance to the area of nutrition, in this case the nutritional problems related to the Egyptian people.</p> <p>However, some problems related to the taxonomy of cyanobacteria used in this work must be corrected. The taxonomically valid name for <i>Spirulina platensis</i> is at present <i>Athrospira platensis</i></p> <p>The common name "spirulina" refers to the dried biomass of <i>A. platensis</i>, which belongs to the oxygenic photosynthetic bacteria that cover the phylum Cyanobacteria.</p> <p>Thus, all the necessary corrections both at the level of the taxonomy and of some small errors found in the text were done in "Track change" mode in the manuscript</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
