

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_48287
Title of the Manuscript:	Use of Software for Image Analysis and Calibration of Automated Rain Simulator
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	An impressive experimental research , need to make more useful	The calibration of the equipment makes possible the use of the same in the experiments, since it establishes the patterns of configurations necessary for the adequate conduction of the studies that will use the effects of the simulated precipitations. This subject was addressed in lines 49-69.
Minor REVISION comments	Some how paper needs to cover other works that related the content	We used 14 papers in the topic of introduction related to rainfall simulator equipment.
Optional/General comments	Better to revisit the discussion part	The changes have been met and are in the text.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	There are no ethical questions in this experiment.
