

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
1. Change the title to "A retrospective study of intestinal parasite among patients in the Ho Teaching Hospital, Ghana".	Changed. Thanks.
2. Put in the Microbiological Studies in Materials and Methods	Please, I think ' Microbiological studies ' is too broad for this retrospective study. Moreover, the study is only about parasites. Although the editorial comment is laudable, I suggest ' Laboratory investigation ' or ' Stool Sample Processing ' which could contain method(s) used in the identification of the named parasites in the study. Line 47-50.
3. Put in the major findings of each Table and Figure in Text in detail.	Please, the main findings were described before each table and figure. However, additions were done making it detailed.
