

SDI Review Form 1.6

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_50756
Title of the Manuscript:	STAKEHOLDERS' VIEW OF SUSTAINABILITY OF PUBLIC WATER SUPPLY SCHEMES IN A RURAL AREA: THE CASE OF MUYUKA SUBDIVISION, CAMEROON
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. What is the population of the study area in the present and previous year? 2. What is the quality of water supplied by the distributors?</p> <p>After the first two questions are answered then a survey will have importance</p>	<p>1) Actually the population of the sub division has greatly reduced due to a crises plaguing part of Cameroon. It is quite difficult to estimate within the past 3 years. 2) The water quality from the established water scheme (while it is functional) is not questionable but because most at times the water systems are not functional, nearby streams have unquestionably doubtful water quality and that is where the population resort to.</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
