General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The methodology written demands little more clarification. Grafical presentations also needs clarity, labels not clear. Interpretation of results may be elaborated meaningfully. Discussion part seemed obscure.	To the best of our knowledge we have written the methodology with clarity from the selection of animals till statistical analysis if any change is required by reviewer kindly specify. Each Graph's labelling is highlighted. Changes are incorporated in discussion.
Minor REVISION comments	References should follow uniform style.	Vancouver style is used as per guidlines.
Optional/General comments	Can be publied after incorporating the suggestions.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
