Manuscript Number:	Ms_JCTI_48202
Title of the Manuscript:	Diagnostic significance of Beclin-1 and Transforming growth factor $\beta$ (TGF- $\beta$ ) in Breast Cancer
Type of the Article	Original Research Papers

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The very relevant study and contributed to clarify the diagnosis of breast cancer</p> <p>I suggest adding the inclusion and exclusion criteria</p>	We mentioned that patients were diagnosed by clinical examination and affirmed by mammography and surgical biopsies.
<b>Minor</b> REVISION comments	<p>What were the limitations of the study?</p>	<p>Requirement of the reviewer was done</p> <p>The present study has a limitation: the sample size was relatively small. Consequently, the present study should be done on large number of breast cancer population to emphasize our results.</p>
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
