SDI Review Form 1.6

**PART 2:**

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	Yes, the participants involved are well protected from any vulnerable coercion. They are benefited from the study with no harm caused during the course of study. Moreover, they are informed about the actual outcome, benefits, risks and discomforts and clarified that she/he does not participate. Eventually the participants were chosen through volunteerism and interests. The readers can trust and avail the findings and researcher is responsible and accountable for any actions.

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
