

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Complementary and Alternative Medical Research</a>
Manuscript Number:	Ms_JOCAMR_47917
Title of the Manuscript:	Evaluation of in vivo Synergistic Hypoglycemic & Hypolipidemic Activity of Ethanolic Extract of Calotropis gigantean Leaves in Combination to Metformin in Alloxan Induced Rats
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. "with high cost for long term use" I think it is highly controversial and the citation do not support it.</li> <li>2. "So natural compounds could be great substitute when taken with synthetic drugs" - Contradiction</li> <li>3. "gender: male" Why only?</li> <li>4. Please include extraction performance.</li> <li>5. Has been detected any adverse effects?</li> </ol>	<ol style="list-style-type: none"> <li>1 &amp; 2 corrected with reference.</li> <li>3. Male was used because female sometimes are susceptible to alloxan reviewed from previous studies.</li> <li>4. Only ethanolic extract was obtained by using ethanol as solvent. The procedure is already in outline. Other extraction was not performed.</li> <li>5. No adverse effect was detected.</li> </ol>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	Good article and interesting results. Photographs of C. gigantean should be included.	Image included.

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)	Antidiabetic & hypoglycemic test were carried out on rat model in strict compliance with the National Research council guidelines on the care and use of laboratory animals to minimize research animal pain and suffering
