

**Editor's Comment:**

It's my pleasure to inform you that, after the peer review the author handled the reviewer comments correctly. I think that the paper entitled **Ms\_JSRR\_46568 Occurrence and Antibiotic Profile of some Enteric Bacteria in Retailed Sachet Water sold in Oluponna, Osun State, Nigeria** is now acceptable for publication in the **Journal of Scientific Research and Reports**. I have marked some minor mistakes in the text. Before going to the production, the author should response the issues.

With Warmest Regards
