PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper aim to dtermine the most appropriate mitigation strategy by involving the community using SAST and ECM	Thank you for your attention, SAST was used to identify the most important and certainty aspects, to involve the community in handling disaster in digital era; While ECM was used to select the strategy inaccordance with real condition. This is a simple method to select some alternative, as complex method : AHP.
Minor REVISION comments	Some mayor typho, and the question: 1. Is it a relation with the usually 5 years flood in Jakarta with this paper? 2. Is it the information centre does not overlapping with the BNPB information centre?	1. Yes... this result will be input for policy maker related flood mitigation in 4.0 era 2. This information center is designed by involving BNPB, BMKG and local government. Its function is to deliver official news digitally through Social Media; but it different with BNPB which delivered official news via TV. and TV news is only given every hour, while official news via social media at any time. So this center will nnot overlap with BNPB.
Optional/General comments
