**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<b>Compulsory</b> REVISION comments	<b>More information on questionnaire results as well as better description of questions included in the survey is missing – as it is missing an evaluation of the results cannot be made. Conclusion and recommendation I consider as weak part of the study – conclusions should be more clear, recommendation (or rather implications) should more reflects results of the study</b>	Corrected as suggested  Conclusion has been restructured
<b>Minor</b> REVISION comments	More characteristics on the bank could be beneficial (especially its position towards competitors, current situation of Nigerian banking sector, how it differ from other countries in the region, how it differ from developed countries.  I did not see questionnaire nor majority of results – therefore I can have doubts about the fact whether the research was done. Normally, the questionnaire and its results can be provided in appendix (or just provided for the review process and not published).	Done
<b>Optional/General</b> comments	Literature resources are a bit outdated – mainly 2011 and older..
