PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Describe sampling procedures and sample size at section 2.2 2. Section 2.2 of materials and methods which contain figures and tables should go to results 3. Where is discussion of this article? Not clearly seen. Kindly separate results from discussion. In the discussion section, discuss why are the results are the way they are by relating it with other people's similar r closely related findings. This is missing in this article. 4. The conclusion is too long. Just make a summary of your results. Your conclusion sounds like discussion of the results. In conclusion siting the references is not required. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
