SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The present work is interesting and relevant to publication in this journal, but some modifications should be made mainly in the introduction and references. The introduction is very vague, bring information about Nori consumption around the world. At the end of the introduction, state the purpose of this paper. References are completely wrong, as they appear during the text and in the reference list.</p>	
<b>Minor</b> REVISION comments	<p>Abstract: "Gelidium sp and Eucheuma cottonii" The species name is written in italics. After the sp has a period. In the conclusion put a colon (:) and start with a capital letter,</p> <p>Keywords: choose words that are not in the title.</p> <p>Line 22: has no roots, stems ,and leaves. Correct is: has no roots, stems, and leaves. Line 25: References must be numbered in the order that they appear in the text. Where are references 1, 2, 3 and 4? The first reference that appears is 5!!!! Line 27: Gelidium must be written in italics. Correct this throughout the text!!!! Line 27: "Nori products." What does this period do there? Line 34: the references do not follow the order!!! Correct throughout the text. Line 35: here you should quickly explain what agar. Line 36: "12-48% [11] The quality". Are there two sentences? Where is the period? Line 42: Eucheuma cottonii must be written in italics. Correct this throughout the text!!!! Line 42: Just like you did here (Rhodophyceae), do for Gelidium too. Line 49 and 50: The species name is written in italics. Line 57: The introduction should have a closing paragraph telling you what the purpose of this paper is. Bring information about Nori consumption around the world. Line 68: Where were algae collected? Did you go through any cleaning, acclimatization ... any treatment before leaving for the experiment? Line 70 and 71: "Rice water Clean water Salt pepper Sugar Flavoring Sesame oil. Olive oil. Fish sauce." Put periods between each object just as you did before. Or, replace all these periods with commas. Line 93: "1 gram sugar, 0.3 g flavoring". You must standardize, or use gram or g. Line 94: "low heat". What temperature is this? To specify. Line 98: "70°C" The correct is 70 °C. Line 99: put the period. Line 136: the correct is mL. Line 141: the correct is 130 °C. Line 142: the correct is 600 °C. Line 154: Put photos of the final noris, this will add work. Line 201: pu t the period. Table 6: In all tables you put the mixing percentages, and in this table you put the letters (A to E). Switch to percentages, making it easy to understand. Line 343: the correct is 70 °C.</p> <p>References: References are not in accordance with the journal format.</p> <p>Where is the Acknowledgements, the Competing interests and the Authors' contributions?</p>
