PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> In the material and methods, the technique sampling used by the author(s) is purposive sampling technique, which is categorised as non-probability sampling. However, the author(s) used OLS that requires a probability sampling technique. Therefore, OLS does not fit to be used in this article. Instead of using OLS, the author(s) are strongly to use descriptive statistics or other non-inferential statistics in this article. To see the relation between some variables and the loan repayment, the author(s) may use cross tabulation analysis --> this is indeed may cause different results from the one provided in the current article. In the recommendation, the author(s) suggested some issues that did not investigate by the author(s) themselves, therefore the recommendation is suggested comes from the results of this article. 	
Minor REVISION comments	<ul style="list-style-type: none"> No need to provide numbers in the conclusion
