Type of the Article	Case report

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Abbreviations must be used in all locations (line 21, 23, 39, 44, 60, 64, 72, 75, 81, 85, 88) except at 1st mention.</p> <p>Introduction Mistakes must be corrected (line 30, 31) The last statement is better to be mentioned in the discussion instead</p> <p>PRESENTATION OF CASE Line 34 reported to → presented to Line 35, 41, 54- dorsum?? !! back Line 35, 41- thoracic?? Line 41- sharp??</p> <p>DISCUSSION Line 61- to replicates → to replicate Line 64- prodromal of → prodrome of Line 77- auris externa → outer ear Line 77- two-third anterior → anterior two-thirds Line 78- no complication → actually there is some degree of scarring and post-inflammatory hypopigmentation noticed in patient's photos Line 82- Topical acyclovir cream (5%) treatment is applied as topically →??</p> <p>REFERENCES Line 118: 46–49 p.?? Line 124: 1086–1089 p.?? Line 126: 330 p.??</p>	
Minor REVISION comments	<p>Line 3, 10: Zoster→ zoster (with small starting letter)</p> <p>An abstract for a case report should be brief. Some information in the abstract can be moved to the introduction.</p>	
Optional/General comments	<p>The case itself is not unusual but can be appropriate for continuing medical education. The information contained in the manuscript looks original. Style and scientific data are adequate; however, some grammar and language mistakes need correction. Keywords are lacking. The references are cited correctly, listed in the required style. Overall scientific priority is medium.</p>
