General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> • This is a good study worth publishing as it provides evidence for keen screening of ART potential clients. • Omit abbreviation in the title. • Unclear, incomplete or confusing phrases/sentences are indicated in the reviewed document. • Use/write HIV and AIDS vs HIV/AIDS because they are not the same!! • Are there no current data on HIV prevalence in Nigeria? If yes, use it. • Use appropriate presentation of latitudes and longitudes (coordinates) (See DK8). • Present BHV prevalence/positivity in the results section. • Present (possible) reasons/factors for similarities/differences between this study and previous ones clearly. • Be consistent with referencing style! • Address DK30. • Emphasizing study findings' importance in HIV and HBV testing and treatment and policy would add value to this manuscript (Amplify last paragraph of 5.0 in the discussion section, 4.0). • Make recommendations health stakeholder-specific than currently presented. • Address DK37 & 38). 	
Minor REVISION comments		
Optional/General comments	Manuscript editing strongly recommended.
