PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Methodology: A small number of individuals were used, which compromises the interpretation of the results and limits the conclusions. It is desirable to highlight the inclusion, non-inclusion and exclusion criteria in the study. Results: make minor table corrections References: All references must be revised and appropriate to the Journal Standards.	
Optional/General comments	Although with a small number of participants, the study addresses an important theme in student health. I consider that the article should be published to contribute to the discussions and assist in the proposition of actions to prevent alcohol consumption.
