PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	a) Literature review Although the research has modelled and simulated a new way for dealing with autocorrelation biases in time series data, it's necessary to present other papers that have proposed concurrent methods and then discuss such papers against the own manuscript findings.	
Minor REVISION comments	a) Citations Some references at the beginning of manuscript appear to be disconnected from the text. Therefore, a review could be appropriate in the whole text.	
Optional/General comments
