PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The manuscript presents a well - founded proposal and approaches a comparison of richness and abundance plant. It deserves to be published, however, some issues need to be better clarified, especially in the methods and presentation of results. See comments in the text.	
Minor REVISION comments	See comments in the text.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)* Although this is a field study, some samples were collected. Another aspect is access to the area. If it is public, the government agency responsible should be aware. If it is a private area, the owners should be aware. These ethical issues need to be clarified.
