**SDI Review Form 1.6**

| Journal Name: | **Annual Research & Review in Biology** |
|---|---|
| Manuscript Number: | **Ms_ARRB_45798** |
| Title of the Manuscript: | **CONTINUOUS MONITORING of ARTERIAL BLOOD PRESSURE and PULSE: COMPARISON of MORNING and EVENING READINGS** |
| Type of the Article | |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

**PART 1:** Review Comments

| | **Reviewer's comment** | **Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)* |
|---|---|---|
| **Compulsory** REVISION comments | **This is an experiment extremely difficult to organize in multiple subjects. The author admits that this is a single-subject time series, but, having in mind that the time axis is measured in years, it is not a disadvantage. Otherwise, the results are extremely interesting and contain valuable information, not only for medical people but also for the other researchers.** | |
| **Minor** REVISION comments | I suppose that the paper should be reformatted before the publishing. The text is squeezed, and there should be at least a line of separation between the Figure and the Text. | |
| **Optional/General** comments | | |

**PART 2:**

| | **Reviewer's comment** | **Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)* |
|---|---|---|
| **Are there ethical issues in this manuscript?** | *(If yes, Kindly please write down the ethical issues here in details)* | |
